## MESSAGE FROM CEO MATRADE

Malaysia's furniture industry over the years has blossomed into a vibrant industry. What started off as a centre of original equipment manufacturers (OEM) for furniture, Malaysia has transformed itself into an industry of original brand manufacturers (OBM) and premier original design manufacturers (ODM).

To assist international buyers who are interested in connecting with Malaysian furniture manufacturers and designers, MATRADE introduced *the Malaysia Exporters of Living & Dining Furniture Directory* where the best export-ready Malaysian companies were consolidated for the benefit of the buyers. The directory is a useful reference for buyers and complements MATRADE's export promotion programmes in the effort to deepen Malaysia's share in the traditional markets, make in-roads into the new and emerging countries as well as creating a niche in new market segments.

With the capacity and capabilities to produce high-quality furniture, innovative designs, varied choices as well as aggressive marketing and brand development initiatives, Malaysia is fast becoming one of world's leading furniture producers.

## INDUSTRY OVERVIEW

Over the years, the Malaysian furniture industry has undergone dynamic transformation from a traditional cottage operation to a technological driven industry. Furniture industry can be considered as one of Malaysia's biggest revenue earners, with total export of over RM7 billion to more than 160 countries annually. This is attributed to a strong manufacturing foundation that evolved from being a provider of raw materials, an abundance of high quality wood supplies, skilled workers, excellent design capabilities and good manufacturing practices.

In addition to local wood furniture, Malaysia offers a rich variety of options, including furniture from imported woods, plastic, metal, composite and a combination of materials. To keep abreast with development, Malaysian furniture makers use innovative mixes of materials such as wood, composite,

polyethylene and metal, producing designs that are both functional and aesthetic.

A common thread that runs through Malaysian furniture are quality designs that suit the lifestyle and taste of different generations. From regular furniture to designer items, the variety of creativity in Malaysian design delights even the veteran collector and the experienced theme decorator. In the effort to go green, Malaysian manufacturers are adopting green

manufacturing methods and incorporate sustainable and chemical free fabrics fibres in their upholsteries apart from using green wood.

Besides catering for homes, Malaysian furniture is penetrating high end applications for today's discerning market. Increasingly, five-star resorts and spas are leveraging on the evergreen appeal of Malaysian made furniture to imbue their setting with a natural ambiance. Hence, Malaysia supplier do

not only cater for the end user, but also supply for contracts and institutional users such as hotels, stadiums, conference centres, schools and hospitals. Malaysian furniture companies have progressed from original equipment manufacturer (OEM) to original brand manufacturer (OBM), with some penetrating the premium original design manufacturer (ODM) segment for all types of furniture applications.

Having enhanced capacity and capabilities in producing furniture of quality, innovative designs, coupled with aggressive marketing and brand development, Malaysia is amongst the leading global producer of furniture with a wide variety of offerings for all industries.
